## GREAT ARTIST MAY VISIT ARDMORE

AN EFFORT BEING MADE TO INDUCE MME. SCHUMANN-HEINK TO SING IN ARDMORE.

On the night of January 9th, Mm. Schumann-Heink is to appear in a recital under the auspices of the Musical Art Institute at Oklahoma City, and yesterday an effort was started by local music lovers to see if she could be induced to fill a date here either before or after her Oklahoma City performance.

Prof. C. W. Richards wrote her booking agent yesterday and a reply is expected this week. If the great contralto can be induced to come here it is certain that she will demand pretty high figures for her services and this will necessitate some pretty fast hustling on the part

RAILROAD NOTES.

The rate of \$225 per hundred pounds on champagne from New York to California has been declared legal.

It is said that the Missouri Pacific is in better shape in respect to treasury cash than it has been for several years.

It is reported that the Reading has ordered the building of 20 locomotives at the company's shops here and given an order for six locomotives of the Mikado type to the Baldwin locomotive works.

It is estimated that the "Milwaukee road" has spent \$61,398,000 for improvements completed and under the course of construction.

The largest single piece of work is the double tracking of 260 miles of main line track across the state of Iowa, extending from the Mississippi river to Council Bluffs. Nearly two-thirds of this will be in operation at the end of this year. The balance will be completed in 1914. This improvement alone cost over \$15,000,000.

Unless closed by ice, the Delaware and Raritan Canal will close on the morning of December 20, according to an official announcement.

The Buffalo and Susquehanna has decided, according to a report, to abandon its road in Potter county and has contracted with the Pennsylvania to take care of the coal traffic in Sinnamahoning. The contract is to run for 25 years and calls for the delivery to the Pennsylvania of 1,500,000 tons annually.

W. C. Nixon, the president of the St. Louis and San Francisco railway, is 55 years old and has been employed in railroad work for 23 years. He started in with the Santa Fe as watchman in 1878. When he left it in 1906 to become vice president and general manager of the Frisco he had risen to be second vice president and general manager of the larger system. One of Mr. Nixon's notable performances with the Frisco has been an increase in the revenue trainload from 214 tons in 1905 to 255 tons in 1912, accomplished in spite of the fact that the road did not have finances with which to extensively reduce grade or buy more powerful locomotives.

**Capt. Burnitt Gives \$1.**  
Capt. Ed Burnitt, one of the old soldiers of the sixties, who makes his home with his daughter, Mrs. G. W. Phillips in the northwest portion of the city, does not get to town very often. He visited the Ardmore office yesterday and confessed that he was getting somewhat old and could not get around quite as lively as he did a few years back. Upon entering the office Capt. Burnitt said, "Here is my contribution to the fund to help the widow whom I learned of through your paper. Not very much," he said, as he presented a shiny silver dollar, "but I would rather give it to aid this woman than anything else I know of." Without adding words he went on his way.

**TO ORGANIZE TENNESSEE SOCIETY**

**LOCAL SONS AND DAUGHTERS OF VOLUNTEER STATE MAY HAVE ORGANIZATION.**

J. B. Moore, of Pulaski, postoffice, Giles county, Tennessee, and several other native sons were discussing the advisability of organizing a Tennessee club last night and Mr. Moore suggested that this announcement be made in the paper and all who were in favor of the movement to notify him at his office and as soon

as a sufficient number had been enrolled as charter members a meeting would be called and a permanent organization perfected.

It is the plan, according to the statement of Mr. Moore, to have at least one big banquet every year with all the good things that have made Tennessee famous second only to Kentucky in the quality of her cooked foods and the sparkling effervescence of her soul-inspiring nectars.

The success of this venture depends entirely upon how many of the native Tennesseans respond to this call, and they are legion in this city and country.

**CHUM BOB'S SPORTING TALK.**

New York, Dec. 9. — New York takes on a world-wide importance today, for the presidents of all of the National League clubs are here to add distinction to the metropolis. The occasion of their presence is, of course, the annual meeting of the National League, for the purpose of electing Gov. Tener of Pennsylvania president of the league. Tener is one of the best informed men in the country on the national game; he has played it and seen others play it, has slept it and eaten it, so is generally absorbed with it. Therefore the Governor expects to have folks sit up and take notice when he delivers himself of an idea, after his election. When Mr. Tener completes his term as governor of the small state of Pennsylvania, he is expected to branch out and come to New York, where he can live and devote himself entirely to league affairs. In recent years he has kept in close touch with baseball, frequently attending the Tri-State league games in Harrisburg, the Pennsylvania capital, and also the National league games in Pittsburg and Philadelphia. He has seen the Philadelphia Athletics win two world's series, and he is well up in the fine points of the game.

One of the most popular men about Madison Square Garden these days is Dave Coburn, who handles the foreigners in the six-day grind. Coburn is strict, but then he is a good fellow and has the confidence of the men he handles. The chaps under his charge have made a splendid impression and there is no doubt about the anxiety they are causing other racers.

Jolly Sullivan, the veteran catcher of the Chicago White Sox, is envious of Johnny Evers' record as a golfer and has challenged him to a match on the links in Chicago. The leader of the Cubs will take him on as soon as he recovers from a cold which has been troubling him for several days.

Teddy Goulait, the pitcher turned over to Memphis of the Southern league by McGraw, will be made over into an outfielder by Mike Finn next season. The manager of the Turtles does not think much of Goulait's ability as a pitcher, but believes that he can be developed into a pitcher.

Willie Fitzgerald, the "Fighting Harp," last of the old guard of famous lightweights who fought in the days of Gans, McFadden and Jack Auliffe, has retired from the ring for all time.

# Dr. PRICE'S CREAM BAKING POWDER

Pure—Wholesome—Reliable—Indispensable

Its fame is world-wide. Its superiority unquestioned. Its use is a protection against alum food. In buying baking powder examine the label carefully and be sure the powder is made from cream of tartar. Other kinds do not make the food healthful.

reported to be slowly improving, and is out of immediate danger.

Track laying gangs began work yesterday on the five mile extension west of Wilson. Then even is a large one and railway building will be rushed to a completion of the five miles.

The train from Wilson was delayed by bad track last night, and arrived about two hours past due.
